Graduation Ceremony for BOE Project Delivery Fundamentals Class Participants

At the BOE Management Team Meeting on September 14, 2023 certificates were presented to the 29 students who completed the Bureau of Engineering 15 week Project Delivery Fundamentals Class, our training program that allows students to learn how Engineering delivers projects. In addition to Engineering employees, there were five students from the Bureau of Contract Administration, Bureau of Sanitation, and LADOT. Completing the training program and successfully passing the final exam is one of the ways to meet the qualification requirements in applying for a position as a "bonused" Project Manager. The 15-week course was the first back to full, in-person instruction since 2020. More than 50 senior managers and subject matter experts from Engineering taught classes.
